Mayor Walter Sendzik,
50 Church Street,
St. Catharines, ON,
L2R 7C2

Dear Sir:

I have owned 33 Ted St. for the past 12 years. My driveway was grandfathered to run into a lane/road way between my house and 37 Ted St. During these 12 years I can count on my right hand the number of times this has been ploughed after a snow storm even though it is city property.

After yesterdays snow fall once again I had it cleared to be able to get out. To add to my problem a city snow plough clearing Ted St. dumped his blade of snow across the entrance of the lane. I wish I had been able to get his license. This happened shortly before 10:30 today while he was ploughing the north side of Ted St. As far as I could see nobody else's drive was blocked. Having to find somebody to clear this so I could get out made me late for my appointment.

I realize that this is not your problem but I am hoping that you can forward this letter to the head of the proper department so this problem can be dealt with.

Yours truly,

Tia Phillips
